4. Sold as-is

The item is sold as-is, in its present condition, with all faults. The Seller makes no warranty of any kind, express or implied, about its condition, mileage or hours beyond what is written in this bill of sale, including no warranty that it is fit for any particular purpose or of any particular quality. The Buyer has inspected the item, or had the chance to inspect it and chose not to, and buys it based on that inspection and the Seller's statements below, not on anything else said. Once the item is delivered the Buyer has no right to return it or to a refund.

5. Seller's statements

Known defects or problems the Seller is disclosing (or none known): _____

Liens or loans against the item: _____

Choices: None; the Seller owns it free and clear / The lien below will be paid off from the sale proceeds and the released title

Lienholder name and payoff amount, if any: _____

The Seller states that the Seller owns the item, has the right to sell it, and that there are no liens, loans or claims against it other than any listed above. Where a lien is listed, the Seller pays it off from the proceeds and delivers the released title to the Buyer as soon as the lienholder issues it. The Seller delivers the title, signed over to the Buyer, with the item or as soon as it is available, and has disclosed every defect the Seller knows of in the field above. These statements survive the sale.

6. Odometer or hours statement

Odometer status (motor vehicles): _____

Choices: Actual mileage / Mileage exceeds the odometer's mechanical limits / Not the actual mileage; odometer discrepa

For a motor vehicle, federal law (49 U.S.C. 32705 and the rules under it) requires the seller to give the buyer a written odometer disclosure when ownership transfers, and in most states that disclosure is made on the title itself or on a state form, not here. The reading in section 2 and the status above are the Seller's statement of the mileage to the best of the Seller's knowledge; they do not replace the disclosure the title requires. For a boat, trailer or equipment, the hours or odometer reading is the Seller's statement of what the meter shows on the date of sale.

7. Delivery and risk of loss

Date and place possession passes to the Buyer: _____

Possession of the item passes to the Buyer at the date and place above. From that moment the Buyer bears the risk of loss or damage, is responsible for insuring it, and is responsible for anything that happens with it, including tickets, tolls and accidents. Until then the Seller bears that risk and keeps the item in the condition the Buyer inspected.

8. Title, registration and taxes

A titled item (a motor vehicle, and in many states a trailer or boat) changes owners through the state's title process: the Seller signs the title over, the Buyer applies for a new title and registration, and the state records the transfer. This bill of sale is the record of the sale, the price and the terms; it is not a substitute for the title transfer. Unless agreed otherwise in writing, the Buyer handles registration, sales or use tax, and any inspection the state requires, and the Seller removes the plates and notifies the state of the sale where the state asks for that.

9. Governing state and other terms

Governing state: _____

This bill of sale is governed by the law of the governing state above. It is the whole agreement between the Seller and the Buyer about this sale and replaces any listing, message or conversation; changes must be in writing and signed by both. If any part cannot be enforced, the rest stands. Each party keeps a signed copy.
